

Interns Selected for 2013 Summer Research Program

Twenty-four undergraduate student interns have been selected to participate in the 2013 WV-INBRE Summer Research Program at West Virginia University and Marshall University. Eight interns will be located at Marshall University and sixteen will conduct their internship at WVU. Thirty-eight applications were reviewed to fill the twenty-four positions. Interns come from eleven of the thirteen Primarily Undergraduate Institutions in the WV-INBRE network. In addition, one intern from the new Bioinformatics Internships for Undergraduate Students in the Southeast INBRE Region will also participate in the summer program at Marshall University. The Summer Research Program will run from May 28 till July 29. Interns will conduct biomedical research projects under the direction of faculty mentors and present the results at their research at the Summer Research Symposium, which is scheduled for July 29 at Marshall University. The morning session of the symposium will consist of oral presentations by participants and a keynote lecture. Poster presentations will be held in the afternoon.
